Free Workshop, June 23, 9:30-1:30
Adapting to Change
Establishing Regional Priorities
Crooked River Adult Education Center, Casco Maine

*Join other stakeholders to learn about climate change and help identify practical strategies to reduce impacts in the Sebago & Crooked River Watersheds!
Coffee and scones starting at 9:00 – Lunch at Noon*

SPEAKERS & AGENDA

- 9:30** *Introduction:* Jackie Sartoris and Eric Walberg, Manomet Center for Conservation Sciences
9:45 *Today's Regional Priorities:* Steve Walker *ME IFW*, Carrie Walia *Loon Echo Land Trust*, Lee Dassler *Western Foothills Land Trust*
10:20 *Climate Variability and Maine Landscapes -- Past and Future:* George Jacobson, PhD
BREAK
11:15 *Infrastructure and Climate Change:* Ryan Wingard, P.E., Wright-Pierce
11:45 *Tools and ideas:* Steve Walker *Local Initiatives*, John Gunn, PhD, Manomet Center, *Payment for Ecosystem Services*
12:00 *Lunch and Discussion!* Reviewing impacts and establishing priorities
There will be time for questions following each presentation.

Manomet Center for Conservation Sciences is developing climate change adaptation plans for specific landscapes, including the Sebago & Crooked River watersheds. Together, we can help identify common-sense actions that will benefit our communities now and in the future. Manomet will be producing a vulnerability assessment for the region, and provide strategies for localities in the region to get ahead of climate change impacts and avoid more costly, reactive solutions.
